REMARKS

The above materials and amendment are submitted to comply with the requirements in the August 8, 2000 Patent Office Action. By way of explanation, the initial disk used was prepared under the program known as PatentIn 2.0 which, because of a flaw, was unable to copy all information inserted into the program directly to a 3 1/2" disk. This flaw has been circumvented in preparing the enclosed 3 1/2" disk.

If the Examiner responsible for this application has any questions regarding the above described materials or amendment, that Examiner is invited to telephone the undersigned at anytime.

Respectfully submitted,

Dated: Sept. 7, 2000
